It has been immortalized over the centuries as the scene of wild and ferocious games between man and beasts: gladiators vs animals & gladiators vs gladiators as well represented in the movie Gladiator. Close to the Colosseum, the Roman Forum, considered the real political, commercial, social, religious center of Rome at the time of the Monarchy and the Republican period. At the center of the Forum, even after 20 centuries, it is possible to walk on the same cobblestones of the "Via Sacra" (Sacred Way) leading to the Capitol Hill and admiring the remaining of with its ancient basilicas, triumphal arches, honorary columns, ancient markets. Re-live the glory of Ancient Rome with a guided visit to Ostia Antica with us: a lively harbor town founded in the 4th century BC. Ancient Ostia is commonly referred to as “Better than Pompei”, due to the astonishing preservation of its buildings. You will stroll through ancient taverns, baths, apartments, groceries and theatres and you will be surprise to see that their present condition so strikingly exceeds the Roman Forum.

Here, it is so easy to let your imagination fly back to the times of the Roman harbor where the isolated ruins reveal no sign of the modern world, thus giving you a truly authentic experience! Strolling along the main street, the Decumanus Maximus, your tour guide will tell you fascinating stories of the past. The Roman statues lining the walkways, still in perfect condition, will make you feel as though you are walking among the ancient Romans! You will even be enticed to take a dip in the Baths of Neptune, crowned by an impressively intact mosaic representing the Sea God in a chariot drawn by sea horses. Don't miss the chance to experience Ancient Ostia, a truly Roman experience.
